RAFTING ON THE RIVER CETINA

Rafting on the river Cetina, not far from Omiš, has recently become the favorite recreational activity for the tourists and adventurers who spend their holidays on the Adriatic coast. The river Cetina is situated between Split and Makarska. Its water level is controlled by the hydroelectric power plant so during summer, when the water level of other rivers is low, this river offers good rafting. It is also near the sea, so the mild Mediterranean climate allows the rafting throughout the whole year. The Cetina offers a great fun and refreshment during hot summer days. But in springtime the floods fill the riverbed and the river becomes wild. The quiet parts of the river and the second and third grade rapids enable a three hour combination of adventure and relaxation in the amazing Cetina river canyon. The whole course of the Cetina is crystally clean and clear, rich with unforgettable scenery of impressive cliffs, playful waterfalls and numerous rapids.

After early breakfast, you will be transferred from the hotel to the starting point where you will get skipper's short lesson followed by equipment adaptation, getting on the raft and sailing downstream to Radmanove Mlinice.

Refreshment with organic, local food and drinks is included. If you are interested we can organize going down waterfall "Velika Gubavica" by rope and dinner in the local restaurant with lodging, where you can try homemade wine and specialties of the ancient principality of Poljica. It is possible to organise lunch after arriving to the finish line in Radmanove mlinice.

Your camera or video camera is your own responsibility, but we insure waterproof bags in the case you don't take them with you.

Transfer to the place where you stay.
